Source: Reuters, OTP Research

Summary

- BET gained 0.29% yesterday on high market turnover (EUR15 mn); liquidity was boosted by 2 deals with FP amounting to EUR 10.6 mn;
- The Treasury successfully sold more than planned amount in 5Y bonds at an average accepted yield of 4.37% while earlier in September, the last 3Y bond auction closed with an average yield of 4.63%
- The EUR/RON is trading around 4.43, at levels last seen in August, before talks of Fed starting tapering began to hurt the leu and its European emerging market peers.

Yesterday, domestic indexes closed up with one exception: the energy company's index BET-NG dropped marginally (-0.09%) led by OMV Petrom (-0.45%) and Transgaz (-0.05%). BET gained 0.29% on the day, led by Fondul Proprietatea (+0.92%) and BRD (+0.39%). Total equities' turnover was large, at EUR 15 mn and ~more than 2 thirds were made by 2 deals with Fondul Proprietatea totaling EUR 10.7 mn. The Fund announced that as of 25 September, Morgan Stanley together with 2 subsidiaries owns more than 5% in FP.

The leu has been firming since last Friday and it is higher by 0.7% on a weekly basis. EUR/RON is now trading around 4.43, at levels last seen in August, before talks about the Fed starting tapering made their way into investor sentiment. Given that Fed's decision is now seen proper, considering the partial US shutdown and the difficulty in raising the US debt ceiling, the tapering subject is now seen as further in the future and this proves supportive for emerging market currencies such as the leu. Also, the IMF approval of the stand by agreement came as another positive driver for the leu.

Yesterday, the Treasury sold RON 1 bn in 5Y bonds, twice than the planned amount. The average accepted yield stood at 4.37% which a success considering that earlier in September it sold 3Y bonds at an average accepted yield of 4.63%. Demand was strong too and bid to cover ratio stood at 3.3X. The preference for 10Y bonds was clearly lower and the sold amount equaled to the plan: RON 500 mn. The average accepted yield was even higher than the previous similar tender: 5.29% compared to 5.25% at the last auction in September.

Short money market rates eased yesterday, while maturities higher than 3M inched up. On a weekly basis, the decline ranges between 6 -32 bps.
